## EDUCATION

Shanghai Jiao Tong University, Shanghai | Sep 2016 - Jun 2018

Computer Information Sciences and Technologies

Jinan University, Jinan | Sep 2007 - Jun 2010

Electronic and Communications Engineering Technology/Technician

## PROJECTS

### ICC — *Intelligent customer care billing software*

Using C#/Java + Angular2 + IIS/HAProxy + Oracle/Redis/SQL Server + TeamCity developed enterprise web application contains **Integration interactive system with 3rd party and customer components, web services, data analysis report. Distributed system** composed of multiple servers contains **cache strategy, message queues and big data analysis.**

As an engineer do backend development, research and solve clients work.

Team members: 15~20, Data level: > 10 millions, UV/PV: million level

## SKILLS

**Backend: C#/Java/Python**

Proficient using C#/Java, familiar using Python

**Frontend:**

**HTML/CSS/jQuery/Angular**

**JS/Vue JS** Familiar using

HTML, CSS, JavaScript, Learn more about Angular JS and Vue JS

**Database Related:**

**Oracle/MySQL/SQL Server**

Experience on database developed and maintained work

**No-SQL Related:**

**Redis/Memcached/MongoDB**

Experience on Redis and Memcached, learn more about MongoDB

**Web Framework & ORM:**

**ASP.NET MVC/Spring/Spring**

**MVC/Flask/Nginx/MyBatis/S**

**ubsonic/EF/Hibernate**

Experience on web framework design structure, familiar using Flask development micro service, and using SSM design web service

Experience on Structure

design/Performance

optimization/Data

Migration/Docker/Linux Shell

## LANGUAGES

Chinese: Native language

English: CET-4
